SUMMARY

Senior eCommerce engineer with 6 years building and re-platforming online stores, with deep BigCommerce specialization — custom Stencil themes, headless storefronts, custom checkout applications, custom widgets, and third-party integrations including Bloomreach. Comfortable across React, Next.js, and TypeScript for headless commerce setups. Supporting Shopify experience through contract maintenance work. Tech-lead background on a multi-developer eCommerce team.

EXPERIENCE

Technical Lead — Freelance / Contract

2025 – Present

Remote, EU-based

- Lead delivery on eCommerce and SaaS contracts across React, Next.js, TypeScript, Supabase, and Node.js
- Design frontend architecture and component systems for storefront and checkout applications integrated with third-party SaaS
- Provide Shopify support work on existing client stores — ticket-based maintenance, fixes, small features
- Own release validation across staging and production; configure CI/CD pipelines and deployment workflows
- Run sprint planning, technical estimation, and risk assessment; mentor developers and act as client-team technical liaison

Front-End / Next.js Developer

2024 – 2025

Hyretech, Tirana

- Built SSR/SSG React applications on Next.js for marketing and product surfaces — directly applicable to headless commerce architectures
- Integrated headless APIs and structured data-fetching layers across server and client components
- Worked with designers, PMs, and backend engineers to translate product specs into shipped features

BigCommerce Developer — Part-time (concurrent with Eurostep)

2023 – 2024

Exposure, Remote UK

- Built and maintained custom BigCommerce themes for UK merchants
- Integrated Bloomreach and other third-party plugins to extend native BigCommerce functionality
- Ran code reviews to maintain code quality across an external dev team

EXPERIENCE (CONTINUED)

Team Leader / BigCommerce Developer

2022 – 2024

Eurostep SRL, Tirana

Led a BigCommerce engineering team — mentoring juniors, defining engineering standards, reviewing PRs

Built a custom BigCommerce checkout application in React, TypeScript, and SCSS to replace the default checkout flow

Re-platformed legacy stores onto BigCommerce; built custom dynamic widgets and integrated third-party apps

Owned responsive implementation across mobile, tablet, and desktop, plus SEO baseline

Front-End Web Developer

2021 – 2022

Arkevo Group, Tirana

Built CRM interfaces in React, Redux Saga, and SCSS — role/permission-driven components and theming

Worked with PMs on requirement gathering and UX troubleshooting

Intern Full-Stack Developer

2020

TALEAS, Tirana

Built fullstack features across a React/Redux frontend and Node.js serverless backend (AWS Lambda, Firebase)

Designed REST APIs and data models in MongoDB, MySQL, and DynamoDB

TECH STACK

BigCommerce — Stencil themes, custom checkout applications (React + TypeScript), custom widgets, headless storefronts, theme re-platforming, Bloomreach integration, third-party plugin development

Shopify — Familiar; supporting experience via contract maintenance work (no flagship project)

Frontend — React 18/19, Next.js (App Router, React Server Components, SSR/SSG/ISR), TypeScript, TailwindCSS, SCSS

Backend & APIs — Node.js, Supabase, REST API integration, serverless (AWS Lambda, Firebase)

Tooling — Git, CI/CD pipelines, responsive/mobile-first builds, SEO foundations, performance & bundle optimization

SELECTED PROJECTS

BigCommerce AI Theme Builder — solo-founded project applying AI to generate BigCommerce theme layouts from natural-language prompts. In active development.

EDUCATION

BSc, Computer Science — Faculty of Natural Sciences, University of Tirana

Primarily self-taught beyond formal coursework; continuous learning through production work.

LANGUAGES

Albanian (native), English (professional)
